Suggested Activities for Monthly Meetings

As stated in the Policies and Guidelines, it is a requirement for mentees and mentors to meet virtually or in-person at least once per month. These meetings are meant to be both fun and productive for everyone in the triad and a few suggestions for activities are listed below:

- Practice interviewing skills
  - Both behavioral and technical interview components such as practice whiteboard sessions
- Resume and GitHub reviews
- Company/site tours of mentors’ places of work (pending organizational approval)
- Grab a coffee and/or dinner at a local restaurant (if both mentor and mentees are local)
- Attend a professional meeting together and introduce mentee/mentor to other professionals in the field
- Go on a walk together as a group and discuss the progress of your mentoring relationship
